PRE - CONFERENCE ACTIVITIES

- 11:00-14:30** **Open Activity by Registration** **Teuta Room**
Workshop on "Balkan-German Experiences in the Field of Wastewater Purification and Sewage Sludge Utilization. Legal Requirements, Technologies and Energy Efficiency"
Moderator: Matthias Worst, Bavarian Environment Agency (LfU)
 This event is focused on the legal framework for water protection, recommendations for planning and the use of technology, as well as the experiences of a municipal company will be presented. The aim of the workshop is to share the German experience regarding the operation and management of urban wastewater treatment plants. The target group to participate in the workshop is managers and engineers who operate wastewater collection and treatment systems, as well as young water professionals in Albania and Kosovo.
- 14:45-17:00** **Open Activity** **Vjosa Room**
Young Water Professionals Forum
 The Young Water Professionals Forum will provide an open platform for final year University students and Young Water Professionals (less than 35 years old), who work in various institutions in the water and wastewater sector. Young Water Professionals are welcome to join the Forum at no cost and learn about ways to develop their careers in the water sector, including education and further education opportunities at MSc or even PhD.
- 14:30-17:00** **Closed Activity only by Invitation** **Dardania Room**
Regional Workshop of the Benchmarking Program for the Kosovo and Albania HUB
 The workshop will bring together participating utilities on UBP Hub for Kosovo & Albania to share their benchmarking practices for improving performance and to summarize the results of the current cycle of the UBP. Each utility participating in the Benchmarking Program will discuss their progress and present the areas where they can and would improve. The UBP HUB will provide practical support in validation of the data and finalising their draft reports, in identifying gaps and opportunities for continuous improvement based on international standards and in comparing themselves with peers using the UBP.
- 15:00-16:30** **Closed Activity only by Invitation** **Teuta Room**
Joint Meeting with Stakeholders on Capacity Development in the Water and Sanitation Services Sector in Albania and Kosovo
 The meeting organized jointly by the Water Supply and Sewerage Association of Albania (SHUKALB) and the Water Supply and Sewerage Association of Kosovo (SHUKOS) aims to facilitate the dialogue and ensure a better coordination among the stakeholders in the national level and regional level on capacity development measures carried out in the water and sanitation services sector in Albania and Kosovo. The meeting is organized in cooperation and with support from the project "Regional Capacity Development Network for Water and Sanitation Services (RCDN+)" and the Danube Learning Partnership, D-LeaP.
- 17:00-18:00** **Open Activity** **Iliria Room**
