Agency

## Workshop

**“Balkan-German experiences in the field of wastewater purification and sewage sludge utilization. Legal requirements, technologies, energy efficiency”**

**7 November 2023**

**Room Teuta**

**Grand Blue Fafa Resort, Golem, Albania**

### PROGRAM

- 11:00 - 11:10 Welcoming words - Introduction of the event - keynotes
- 11:10 - 11:30 Legal framework for purification and discharge of municipal wastewater in Germany, implementation of EU Directive 91/271/EWG  
**Matthias Worst, Bavarian Environment Agency (LfU)**
- 11:30 - 11:50 Legal framework for purification and discharge of municipal wastewater in Kosovo/ Albania.  
**Prof. Assoc. Enkelejda Gjinali, Faculty of Civil Engineering, Albania**  
**Afrim Lajci, Inter-Ministerial Water Council, Office of the PM, Kosovo**
- 11:50 - 12:10 Situation of public services, results of the IAWD Benchmarking Program  
**Nadire Vitija, The Water Supply and Wastewater Works Association of Kosovo (SHUKOS)**
- 12:10 - 12:30 Adaptation of drainage systems to climate change  
**Prof. Dr. Ing. Günthert, UniBW**
- 12:30 - 13:00 Coffee Break
- 13:00 - 13:20 Influence of commercial indirect discharges on operation and performance of municipal wastewater infrastructure and treatment plants/ requirements for the supervision of the Drainage network in the implementation of the drainage" Introduction of the water reuse pilot project Schweinfurt  
**Markus Büttner, Urban Drainage Schweinfurt**
- 13:20 - 13:40 Solutions for Decentralised Wastewater Treatment  
**Thomas Parchent, utp umwelttechnik pöhl GmbH**
- 13:40 - 14:00 Technologies for Sludge Drying and Sludge Incineration.  
**Franz Kraus, Jumbo Group**
- 14:00 - 14:20 Principles for the planning and maintenance of wastewater treatment plants and drainage systems  
**Prof. Dr. Ing. Günthert, UniBW/ Matthias Worst, Bavarian Environment Agency**
- 14:20 - 14:30 Conclusion and end of the workshop
